

Indium Metallization: The New Metal

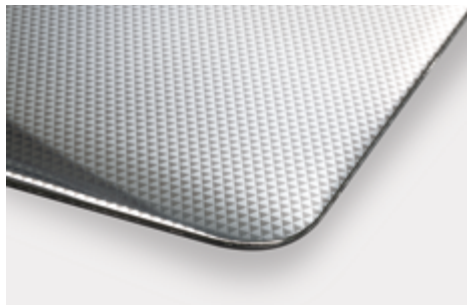

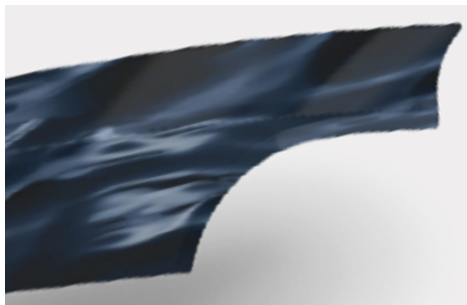

Bright like a diamond

New Metal

Bright like a diamond

Indium-based metallization offers you unlimited design freedom: Patterns and colors are just as possible as a real chrome look, glossy, matte, semi-matte and brushed surfaces.

Benefit from these further advantages:

- Meets the automotive and consumer electronics industries' high standards
- Ideal for automotive exterior use, thanks to high resistance to corrosion, UV and abrasion
- Translucent to radar beams and suitable for non-conductive vacuum metallization (NCVM) and 5G
- Backlit, ideal for Shy Tech designs and touch operation
- Environmentally friendly alternative to electroplating
- Easily recyclable
- Can be used for and on recycled materials
- Efficient IMD series process
- Can be used for partial decorations
- Suitable for various types of plastic including ABS, PC/ABS, ASA, PP, PA12
